Letter of Continuing Guarantee – BCL

BCL grade film, as supplied by Bolloré Incorporated, is guaranteed to comply with, and is not adulterated or misbranded within the meaning of all relevant:

- US Federal Food, Drug and Cosmetic Act (FFDCA) requirements. Specifically, the above designated grade complies with FDA regulation *21 CFR 177.1520 – Olefin polymers*,
- FSIS Directive 7410.1, dated 7-1-93 (current revision),
- Part B Division 23 of the Canadian Food and Drug Regulations,

This film may therefore be safely used for articles that contact fatty, aqueous and acidic foods, for long term storage at room temperature or below. This film is not suitable for packing or holding food during cooking. Non-printed film is suitable for microwave heating.

Additionally, BCL grade film:

- **RoHS2/Heavy Metals** – Per RoHS Directives 2011/65/EU and 2015/863/EU, film does not contain any intentionally added lead, hexavalent chromium, cadmium, mercury, PBB, PBDE, DEHP, BBP, DBP or DIBP, or a combined concentration of these substances (>100 mg/kg),
- **Prop 65** - does not contain any substance listed pursuant to the California Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65) in an amount that would require a warning to Buyer's employee or others using the product,
- **REACH SVHC** - does not contain any of the 201 EU REACH 1907/2006 Substances of Very High Concern (July 2019 candidate list) which have been intentionally added, and any such substances incidentally present do not exceed a total level of 0.1% w/w,
- **Dioxins** - contains less than 2 parts per trillion 2,3,7,8-tetrachlorodibenzo (Para) dioxin,
- **Clean Air Act** - does not contain and is not manufactured with ozone-depleting chemicals listed under the Clean Air Act Amendments of 1990, nor require any warning related to such chemicals,
- **Allergens** - does not contain any primary allergen, as listed in FALCPA (USA),

- **Other substances** - is not manufactured with BPA or other phthalates, wheat/gluten, PVC, lactose or latex. Products are not tested for these substances,
- **Recycled content** - does not contain any post-consumer recycled content,
- **Chemical migration** - is periodically tested for compliance with FDA regulation 21 CFR 177.1520 (migration of chemical substances and organoleptic properties).
- **Traceability** - contains labelling sufficient for traceability to raw materials as required by BRC Issue 5 and FSSC22000. Each lot is coded for component tracking.

Bolloré certifies that BCL film is made using Good Manufacturing Practices and has passed all internal quality control tests before release. Manufacturing and converting production processes meet BRC Issue 5 (Packaging materials – High hygiene), ISO22000:2005, ISO9001:2015 and FSSC22000 (ISO22000:2005 + ISO/TS22002-4), and are regularly audited and certified by outside parties for compliance. Physical, chemical and biological product safety contamination risks are addressed within HACCP plans by senior management and product safety teams.

Sincerely,

A handwritten signature in blue ink, appearing to read "Charles O'Lari".

Charles O'Lari

Manager – Quality/Safety/Environment
