

<p style="text-align: center;"><b>BOLLORE FILMS FOOD CONTACT STATUS</b></p>
---

On behalf of BOLLORE DIVISION FILMS, we hereby declare that our food-packaging film marketed under the name of

**BOLLORE SHRINK FILMS BE ; BY; B30; BX ; BXX ; BFF ; BLG ; BZ ; BRX ; BSP;  
BTTX110; BTT+125, BSF, LIDTEC LB, BCF, B-NAT**

comply with FDA regulation 21 CFR 177.1520-Olefin polymers, allowing use for articles that contact food, except for articles used for packing or holding food during cooking.

The BOLPHANE films are made of compliant material under the FDA regulation 21 CFR 177.1520 regarding "Olefin polymers", 21 CFR 177.1350, and all applicable Regulations regarding "Indirect Food Additives". They passed successfully tests compliance according to relevant chapter.

The material referenced above are produced under Good Manufacturing Practices in an ISO22000 and BRC loP-certified facility, and converted in an FSSC22000-certified facility, under EC regulation 2023/2006/EC, as well as US FDA 21CFR 174.5, to ensure its hygienic quality for the packaging of food products.

The ingredients used in the formulation are not likely to alter the organoleptic properties of food products: however it is the user's responsibility to verify the neutrality of the film with respect to its product under specific conditions of use and of storage.

Date: November, 2017

Jean-François GLEZ

Product & Research and Development Manager

A handwritten signature in black ink, appearing to be "JF GLEZ", written over a horizontal line.

*This declaration is valid for a period of two years as of the date of issue of the statement.*

*It should be renewed in all cases where the previous conformity is no longer ensured and in the case of changes in the regulations*
